

# Student Response: April 23, 2006

Name \_\_\_\_\_

In today's Notes from the Trail, Dave writes about seeing many canoes during the day. Why do the fishermen have to go deeper in the rainforest during the rainy season?

---

---

---

---

In today's Notes from the Trail, how many minutes did it take the team to reach the ranger station at the end of the river? Show your work.

---

---

---

---

What town is the Expedition Team headed toward? Where is it located?

---

---

---

---

Imagine you were part of the team. How would you react to the black caiman being caught in a net?

---

---

---

In *Animals of the Amazon*, what organisms benefit from the caiman? What type of consumer is the black caiman? Herbivore, Carnivore, or Omnivore?

---

---

---

Name the main reason that the black caiman population inside the Pacaya Samiria Reserve is higher than other places in the rainforest?

---

---

In *People of Peru*, what exactly are the biology students studying? Be specific.

---

---

---

---

If you could choose to be a biologist in any ecosystem, where would it be? What are your reasons for choosing the habitat you did?

---

---

---

---

---

---

---
