As mentioned in *Animals of the Amazon*, give two examples of adaptations that make the Tamandua Anteater well-suited for catching ants and termites in the trees.

In *People of Peru*, Anna mentions talks about the Monte Bello school year. How many months per year are students not going to school? What percent of the year is this?

In *People of Peru*, what is a chore that the whole family participates in? During what season does this chore happen?

What did Luceo and Luceo Jr. bring with them on their two-day canoe trip? Is this more or less than you think you would need to survive in the flooded forest? What else would you bring?
